

SOIL BUILDING: **A SUSTAINABLE APPROACH**

**An On-Farm Workshop
With Dr. Ron Godin**

**Research Scientist in Organic and Sustainable Agriculture
Colorado State University Rogers Mesa Research Center**

Wednesday, March 9, 2005

9:00 AM to 12:00 PM

Smith and Smith Farm

350 Comstock Road Dayton, Nevada

Join Dr. Godin for an informal on-farm workshop focusing on sustainable and organic management techniques for building productive soils. Discussion topics will include soil-water-nutrient interactions and improving availability of nutrients in arid soils, soil amendments, composting & animal manures, and cover crops.

There is no fee for the workshop.

Call now to register.
